Objective

Frontend Developer with 1+ year of overall experience across development and QA roles — having built and contributed to 25+ web applications, while also ensuring product quality through automated testing (Cypress, Playwright) across 8 applications. Skilled in React.js, Next.js, TypeScript, REST API integration, and cross-functional collaboration in Agile/Scrum teams.

Experience

PT. Mari Buka Akses – Web Programmer

May 2026 – Present

Freelance – (Denpasar, Bali, Indonesia)

- Developed web application interfaces for the Kolivo.AI project using Next.js, implementing AI-based features aligned with product and business requirements.
- Integrated frontend with Laravel-based backend services via REST API, handling authentication flows and dynamic data rendering.
- Collaborated with backend, QA, and UI/UX teams in Agile/Scrum sprints using GitLab for version control and code review.
- Identified and resolved UI bugs and performance bottlenecks across key product flows, improving overall application stability.

Vodjo Teknologi Indonesia – Software Quality Assurance

Sep 2025 – Present

Internship – Hybrid (Kota Bandung, West Java, Indonesia)

- Executed functional and API testing using Postman across 8 projects spanning mobile apps (iOS & Android), CMS platforms, e-commerce, and corporate websites.
- Built and maintained E2E automated test scripts using Cypress and Playwright, covering critical user flows and UI interactions.
- Collaborated with frontend and backend developers to reproduce and resolve UI/UX bugs and functional issues.
- Documented test results, bug reports, UAT scenario and client feedback to support continuous product improvement.

Lumoshive Academy – Frontend Developer Trainee

Dec 2025 – Mar 2026

Bootcamp Batch 3 React – Online Class (West Jakarta, Indonesia)

- Ranked Top 3 out of entire batch with a transcript score of 95.9.
- Built a full e-commerce web application collaborating with a Golang backend team, integrating REST APIs and managing state with Redux Toolkit and React Hooks.

- Developed pixel-perfect, responsive interfaces from Figma designs using React.js, TypeScript, and Tailwind CSS.
- Implemented comprehensive testing: Unit, Integration, and E2E Testing using Jest, Cypress, and Playwright.
- Applied CI/CD pipelines and Agile/Scrum methodology including sprint planning, daily standups, and retrospectives.

Gaotek Inc – Web Developer

Oct 2025 – Dec 2025

Internship – WFH (Toronto, Canada/USA)

- Built and maintained responsive WordPress/WooCommerce websites including custom theme development and plugin configuration.
- Sliced Figma UI designs into pixel-perfect, cross-browser-compatible WordPress themes.
- Applied on-page SEO best practices including metadata optimization and content structuring.

PT. Cakrawala Global Yaksa – Web Developer Trainee

Jul 2022 – Dec 2022

Praktek Lapangan Kerja – Onsite (Bandung Barat)

- Developed a web-based Payroll Application using CodeIgniter, Laravel 8, and MySQL
- Deployed the application to a live server via cPanel, managing domain configuration and hosting setup.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Shadcn, MUI
- **Backend:** Node.js, PHP 8+, Laravel, CodeIgniter4, Golang (Basic), Express.js
- **Database:** MySQL, PostgreSQL, MongoDB, Firebase, Redis
- **Testing & QA:** Cypress, Playwright, Jest, Postman, Android Studio, Appium, Swagger
- **State Management:** Redux Toolkit, React Context API
- **Tools & DevOps:** Git, GitHub, GitLab, Docker (Basic), CI/CD, Vercel, Netlify, Vite, VPS, Turbopack, cPanel
- **API & Architecture:** REST API Integration, Axios, SSR, SSG, CSR
- **CMS & SEO:** WordPress, WooCommerce, On-Page SEO
- **Methodologies:** Agile/Scrum, Component-Based Architecture, PWA
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability

Education

SMKN 1 Cisarua

2020 – 2023

Software Engineering

Certifications

- **Lumoshive Academy** – Frontend Web Development with React Mar 2026
- **Lumoshive Academy** – React Advanced Mar 2026
- **Dicoding Indonesia** – Belajar membuat aplikasi Web dengan React May 2026
- **IBM** - Code Generative and Optimization AI July 2025
- **Dicoding Indonesia** – Prompt Engineering for Software Developer May 2026
