Objective

Frontend Developer with hands-on experience building responsive web applications using React.js, Next.js, and TypeScript. Experienced in REST API integration, automated testing (Cypress, Playwright), and cross-functional collaboration in Agile/Scrum teams.

Education

SMKN 1 Cisarua

2020 – 2023

Software Engineering

- Mastered core web technologies: HTML, CSS, JavaScript, PHP, and Java
- Implemented OOP principles and CRUD-based web application development
- Developed understanding of web architecture and object-oriented programming concepts
- Learned CodeIgniter & Laravel frameworks for backend web development

Experience

PT. Mari Buka Akses – Web Programmer

May 2026 – Present

Freelance – (Denpasar, Bali, Indonesia)

- Developed web application interfaces for the Kolivo.AI project using Next.js, implementing AI-based features aligned with business requirements.
- Integrated frontend with Laravel-based backend services via REST API.
- Collaborated with backend, QA, and UI/UX teams using Agile/Scrum and GitLab for source control.
- Performed bug fixing, debugging, and performance improvements throughout the development cycle.

DBS Foundation – Full Stack Web Developer

May 2026 – Present

Coding Camp – Online (Indonesia)

- Currently enrolled in an intensive full-stack bootcamp covering HTML, CSS, JavaScript, React.js, and responsive web design.
- Built interactive web applications through hands-on, project-based learning.
- Strengthened problem-solving and software development skills in a structured professional environment.

Vodjo Teknologi Indonesia – Software Quality Assurance

Sep 2025 – Present

Internship – Hybrid (Kota Bandung, West Java, Indonesia)

- Executed functional and API testing using Postman across 7 projects spanning mobile apps (iOS & Android), CMS platforms, e-commerce, and corporate websites.

- Built and maintained E2E automated test scripts using Cypress and Playwright, covering critical user flows and UI interactions.
- Collaborated with frontend and backend developers to reproduce and resolve UI/UX bugs and functional issues.
- Documented test results, bug reports, and client feedback to support continuous product improvement.

Lumoshive Academy – Frontend Developer Trainee

Dec 2025 – Mar 2026

Bootcamp Batch 3 React – Online Class (West Jakarta, Indonesia)

- Ranked Top 3 out of entire batch with a transcript score of 95.9.
- Built a full e-commerce web application collaborating with a Golang backend team, integrating REST APIs and managing state with Redux Toolkit and React Hooks.
- Developed pixel-perfect, responsive interfaces from Figma designs using React.js, TypeScript, and Tailwind CSS.
- Implemented comprehensive testing: Unit, Integration, and E2E Testing using Jest, Cypress, and Playwright.
- Applied CI/CD pipelines and Agile/Scrum methodology including sprint planning, daily standups, and retrospectives.

Gaotek Inc – Web Developer

Oct 2025 – Dec 2025

Internship – WFH (Toronto, Canada/USA)

- Built and maintained responsive WordPress/WooCommerce websites including custom theme development and plugin configuration.
- Sliced Figma UI designs into pixel-perfect, cross-browser-compatible WordPress themes.
- Applied on-page SEO best practices including metadata optimization and content structuring.

PT. Cakrawala Global Yaksa – Web Developer Trainee

Jul 2022 – Dec 2022

Praktek Lapangan Kerja – Onsite (Bandung Barat)

- Developed a web-based Payroll Application using CodeIgniter, Laravel 8, and MySQL, covering full-stack UI and backend integration.
- Designed relational database structures applying OOP principles to meet payroll system requirements.
- Deployed the application to a live server via cPanel, managing domain configuration and hosting setup.

Certifications

-
- | | |
|--|---------------------|
| • Lumoshive Academy – Frontend Web Development with React | Mar 2026 |
| • Lumoshive Academy – React Advanced | Mar 2026 |
| • Digitalent & Komdigi – Konsep Pemrograman | Oct 2025 |
| • IBM - Code Generative and Optimization AI | July 2025 |
| • KAreerr Elevation Vol.2 – IT Bootcamp | May 2026 |
| • Dicoding Academy - AWS AI Academy 2026 | May 2026 |
| • Coding Camp DBS Foundation 2.0 – Full Stack Web Developer | Mar 2026 – May 2026 |

Hard Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS.
- Rendering Methods: SSR (Server-Side Rendering), SSG (Static Site Generation), CSR (Client-Side Rendering)
- Backend: Node.js, PHP, Laravel, CodeIgniter, Golang
- Database: MySQL, PostgreSQL, Firebase, Supabase, Redis, MongoDB
- Styling & UI: responsive design, cross-browser compatibility, accessible UI, pixel-perfect implementation
- State Management: Redux Toolkit, React Hooks (useState, useEffect, useContext, useReducer)
- API & Data Handling: RESTful APIs, Fetch API, Axios, API integration
- Testing & QA: Cypress, Playwright, Jest, Postman, Unit / Integration / E2E Testing
- DevOps & Tools: Git, GitLab, GitHub, CI/CD, Docker (basic), Vite, Turbopack
- Cloud & Services: Firebase Authentication, Firestore, Netlify, Vercel, cPanel deployment
- CMS & SEO: WordPress, WooCommerce, on-page SEO
- Development Methodologies: Agile/Scrum, component-driven development, DRY principles, PWA
- AI-Assisted Development Tools: Cursor, Claude Code, GitHub Copilot

Soft Skills

- Leadership & team collaboration
- Problem-solving & analytical thinking
- Communication & cross-functional teamwork
- Fast learner & adaptable
- Time management & responsibility
